

About Structured Finance

Structured Finance is primarily focused on providing non-recourse senior debt financing for **Renewable Energy and Infrastructure** projects.

NORD/LB has become one of the leading financiers with **over 1,000 renewable projects (equivalent to ~45GW)** across our active markets in Europe, Americas, and Asia Pacific, predominantly in wind and solar energy. Recently, we have financed **~1GW of battery energy storage** and continue to explore more opportunities in this growing space.

Key Figures

// **120 employees**
in our global team

// **ca. 17,7 bn Euro**
of client commitments

In the infrastructure sector, we have financed over **150 infrastructure projects** in the past decade and we continue to diversify our lending portfolio and transition the business into digital infrastructure as demonstrated by our recently closed transactions.

With our extensive sector expertise, we are **committed to financing the transition to a sustainable future** by supporting our clients across our global platform, providing innovative financing solutions to ensure projects **deliver long-term social and environmental value**.

// **45 GW**
Global renewable energy assets
financed (wind & solar)

// **150 Infrastructure projects**
financed worldwide
