agencies. A credit rating is an assessment of the solvency or the credit-worthiness of creditors and/or bond-issuers according to established credit review procedures. These ratings and associated research help investors to analyse the credit risks associated with fixed-income securities by providing detailed information of the ability of issuers to meet their obligations. The lower the assigned rating is on the relevant scale, the higher such rating agency assesses the risk that the Issuer's obligations will not, not fully and/or not timely be met. A rating is not a recommendation to buy, sell or hold any Notes issued and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. A suspension, reduction or withdrawal of any rating assigned may adversely affect the market price of the Notes issued and could also limit Bremer LB's funding ability, which would in turn have an impact on its profitability.

Bremer LB is rated by Fitch Ratings Ltd ("**Fitch**").

Fitch is established in the European Community and is registered under Regulation (EC) No. 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended (the "**CRA Regulation**").
