## Rating of the Issuer

The risk related to an issuer's ability to fulfil its obligations created by the issuance of debt securities and money market papers is described by reference to the credit ratings assigned by independent rating agencies. A credit rating is an assessment of the solvency or the credit-worthiness of creditors and/or bond-issuers according to established credit review procedures. These ratings and associated research help investors to analyse the credit risks associated with fixed-income securities by providing detailed information of the ability of issuers to meet their obligations. The lower the assigned rating is on the relevant scale, the higher such rating agency assesses the risk that the Issuer's obligations will not, not fully and/or not timely be met. A rating is not a recommendation to buy, sell or hold any Notes issued and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. A suspension, reduction or withdrawal of any rating assigned may adversely affect the market price of the Notes issued and could also limit Bremer LB's funding ability, which would in turn have an impact on its profitability.

Bremer LB is rated by Fitch Ratings Ltd ("**Fitch**").

Fitch is established in the European Community and is registered under Regulation (EC) No. 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended (the "**CRA Regulation**"). The European Securities and Markets Authority publishes on its website ([www.esma.europa.eu/page/List-registered-and-certified-CRAs](http://www.esma.europa.eu/page/List-registered-and-certified-CRAs)) a list of credit rating agencies registered in accordance with the CRA Regulation. That list is updated within five working days following the adoption of a decision under Article 16, 17 or 20 CRA Regulation. The European Commission shall publish that updated list in the Official Journal of the European Union within 30 days following such update.

As of the date of this Prospectus, the ratings assigned by Fitch to Bremer LB were as follows:

Fitch<sup>7</sup>: Long Term Issuer Default Rating: A-, outlook stable

The following definitions have been extracted from the internet page of Fitch:

"A: High credit quality. 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. "+" or "-" may be appended to a rating to indicate the relative position of a credit within the rating category."
