Covered Bonds

Authors: Alexander Grenner // Lukas Kühne // Dr Frederik Kunze

Outstanding Covered Bond volume totals JPY 495bn.

The issuer Sumitomo Mitsui Banking Corporation exclusively maintains a programme for the issue of mortgage Pfandbriefe, with the cover pool having a volume of JPY 1153.5bn as at the reporting date of 18 November 2024. This is offset by covered bonds issued totalling JPY 494.7bn, resulting in an arithmetical overcollateralisation ratio of 133.2%. There is currently no covered bond legislation in Japan; instead, the issuer has specified a "minimum committed" OC of 25%. SMBC is represented in the current composition of the iBoxx EUR Covered with three outstanding bonds in benchmark format, with the last issue dating back to February 2023. A further bond no longer falls under the index criteria due to its remaining term of less than one year.

Cover assets to be located exclusively in Japan

As at the reporting date of 18 November 2024, SMBC's cover pool consisted exclusively of primary residential cover pool assets, which are located exclusively in Japan. The largest share of the total of 58,983 loans can be attributed to the Tokyo region with 44.7%, followed by Osaka with 15.5% and Kanagawa with 14.2%. The average loan volume as at 18 November 2024 was JPY 24,400,328 and the share of the ten largest exposures in the cover pool was 0.1%. Non-performing loans are not included in the cover pool. 100% of the loans are allocated to the "owner/family occupied" category. While the average LTV for the non-indexed case is 81.8%, the indexed LTV, which takes into account price changes on the property market, is 70.5%. 90% of SMBC's mortgage cover pool consists exclusively of variable-rate loans, with the remaining 10% being fixed-to-fixed/floating choice loans.

Rating and regulatory treatment

SMBC's covered bonds have the highest rating from the rating agency Moody's (Aaa). The agency also rates the Timely Payment Indicator (TPI) and TPI Leeway as "Probable" and "2" respectively. A risk weight of 20% in accordance with CRR applies to the covered bonds. In our understanding, the EUR benchmarks are not suitable as eligible assets in the context of the LCR, also due to the fact that covered bonds legislation does not yet exist in Japan, and do not count as eligible collateral in the context of the ECB Collateral Framework.
